Cartersville Mourns Death of Distinguished Evangelist.

TO LIE IN STATE AT CAPITOL

After Funeral Services In the Tabernacle Remains Will Be Carried to Atlanta — Many Beautiful Floral Tributes Sent to Cartersville.

Cartersville, Ga., Oct. 18.—The remains of Rev. Sam P. Jones arrived at his old home on a private train at 1:50 Tuesday afternoon to the accompaniment of tolling bells, falling tears and all the outward manifestations of grief that revealed the sorrow of those who had known and loved him.

As a tribute to his memory the schools and municipal offices were closed to permit all to join in the demonstration in honor of a good man's sad home-coming.

The remains arrived on a special furnished by Mr. John Thomas of Nashville, president of the Nashville, Chattanooga and St. Louis railroad. On the train with the remains were: Mrs. Jones, Mrs. Annie Pyron, daughter of Rev. and Mrs. Sam P. Jones; Miss Julia Baxter Jones, another daughter; Rev. Walter Holcombe of North Carolina, Rev. French Oliver of Chicago; Rev. W. A. Bowen of Mississippi, Professor Smoot, Mr. Thomas Dunham, Mr. Jones' secretary and assistant. The train also bore the two sons-in-law of Mr. Jones, Bernard Sloan and Ruohs Pyron, who went up from here and met the special at Chattanooga; an aunt of Mr. Pyron, who joined them at Chattanooga; also Rev. George W. Duval, pastor of the Methodist church here, and Mr. Sam P. Jones, Jr., who went up and met it at Dalton.

All Cartersville Met Remains.

The special made a very swift run, leaving Chattanooga at about 12 o'clock. The people of the city had manifested in words and action that they were anxious to do all possible honor to their distinguished fellow citizen who had passed away, and responsive to such desire it had been arranged to give the most general notice possible of the time the special would arrive. The fire bell, therefore, was rung for 20 minutes before the arrival of the train. The arrival of the special found practically the whole population of Cartersville assembled about the depot.

The remains were taken from the train, where the box was removed from around the very handsome casket and then placed in the hearse and carried to the home.

As a mark of respect the citizens of the town formed in twos and marched beside the corpse from the depot to the home. It was a peculiarly touching scene as those with whom he had mingled in life and who had known him through all his years of trials and success moved with solemn tread to thus emphasize their esteem and the magnitude of their loss. At the home the file of twos formed into two single lines along the walkway and between these the remains were borne into the house.

An invitation was then given for all to go in and view the remains as they lay in the parlor, filing in singly, marching around the casket and then out. The hundreds that were assembled then went in and viewed the remains. There was a deep solemnity visible not only in the faces but in the actions of all who assembled as mourners at the bier of one whom they regard as a great man and one they loved.

Bishop Galloway to Conduct Funeral.

The arrangements for the funeral as now agreed upon are as follows:

The remains will lie in state at the home until Thursday at 2 o'clock, when the funeral will take place.

Everybody is invited to visit the home and take a last look into the face of him who has spoken to and moved so many. The funeral Thursday will occur at the large Sam Jones tabernacle. Bishop Galloway of Mississippi will conduct the services. He will be assisted by Rev. Walter Holcombe, Rev. French Oliver, Rev. W. A. Bowen, Rev. George W. Duval, and perhaps others.

After the funeral services the remains will be carried to Atlanta and will lie in state at the capitol Friday. They will be consigned to a vault in one of the cemeteries of the city to await the preparation of a suitable vault for their final keeping in the family lot in Oak Hill cemetery here.

The pall-bearers have not been selected, but will probably be chosen from among his brother ministers.

Among those from other points who are here for the funeral are two uncles of Mr. Jones, Dr. James Jones of Ragland, Ala., and Rev. A. P. Jones of Rome. Other relatives and friends are expected.

At Cartersville stores and business houses will be closed during the hours of the funeral services, and the fire bell will toll in honor of the town's late most noted citizen.

Since the announcement of the death scores of telegrams have come from all parts of the United States, extending condolence to the saddened relatives. Many prominent people are among the senders of these words of love and tenderness, and to them names known the world over are signed.

Much Life Insurance.

Mr. Jones leaves to his family a substantial estate, estimated to be worth several hundred thousand dollars. He was a great believer in life insurance, and carried upon his own life policies aggregating about $75,000. He owned property here, in Atlanta and in Nashville, besides several other places. The larger part of the estate consists of realty, which has advanced much in value during the last few prosperous years.

Nothing is known of the will of the deceased, but it is believed that he left one. It is generally believed that the larger share of his estate goes to his wife and charity. Several benevolent enterprises throughout the state and country were recipients of his constant aid and exalted opinion. It is believed that many of these will share in his bequests.

White Dies of Pistol Wound.

Atlatna, Oct. 18.—Mr. W. C. White, the woung man who was shot in Jonesboro Sunday night by Will B. Lee, died at the Grady hospital Tuesday from the effects of his wound. The remains were taken to his old home at Ellenwood for funeral services and interment. W. C. White was day telegraph operator of the Central railroad at Jonesboro, and was highly esteemed by his employers. White was at his work Sunday night, when Lee came into the office, and after some words, Lee pulled a revolver and shot his friend twice. One ball passed through White's wrist and the other inflicted the fatal wound, being in his abdomen.

Report Is Denied.

Nashville, Tenn., Oct. 18.—A Bristol, Tenn., dispatch says Mrs. R. L. Garner, wife of the noted student of the monkey language, makes the following statement: "As several newspapers have informed the public that one Miss Quimarton of New York was about to join Professor Garner in the jungles of Africa for the purpose of studying the wild beasts, it is but justice to say that Professor Garner will certainly not occupy his cage, as it was lost two years ago by the capsizing of a boat. It is also but justice to state that Professor Garner is in ignorance of Miss Quimarton's proposed trip to Africa."

Silver Service For the Tennessee.

Nashville, Tenn., Oct. 18.—The committee here having in charge the presentation of the silver service from that state to the cruiser Tennessee, have agreed that the ceremonies shall take place at Mobile, Ala., Nov. 21 and 22 on the occasion of the state confederate reunion, if the navy department will send the vessel to that port.

Palmer Leaped to Save Life

Corbele, Ga., Oct. 18.—Mayor Pro Tem. B. H. Palmer of this city, one of the passengers on the ill-fated Seaboard train that was wrecked and burned near Pittsview, Ala., Sunday night, has reached home. Mr. Palmer lost all of his baggage and saved himself only by jumping from the burning car, a distance of 15 feet.

COTTON DAY AT FAIR WAS WELL ATTENDED

Important Addresses Made by Association Officials.

PRESIDENT JOHNSON PRESIDED

All Attractions Are Now Complete and Visitors Are Pleased — Interesting Features For the Closing Week. Big Day Thursday.

Atlanta, Oct. 18.—Cotton planters and cotton men from all portions of the state met at the state fair Thursday morning to attend the big Cotton day exercises that had been so elaborately arranged.

The threatening rain did not decrease the crowds, and there were nearly 5,000 visitors assembled in the old machinery hall when the exercises were opened by President M. L. Johnson of the Georgia division of the Southern Cotton association.

The mammoth meeting was called to order shortly after 10 o'clock, and from the openings remarks of President Johnson, it was immediately observed that the meeting would be one of much importance. Many prominent officials of the Southern Cotton association were present.

With the poultry show in full blast, the exhibits and midway affording profit and pleasure for all, and Thursday near by, with three different programs, the crowds came with a rush, and although the day was damp, the fair presented a pleasant scene.

Thursday will come Atlanta day, Press Day and Old Veterans' day. No official program has been arranged for the day, but all who come will find a welcome awaiting them.

Atlanta day has been designated simply as an Atlanta occasion, with the usual spirit of jollification.

The old soldiers of the Southern Confederacy will be admitted free of charge Thursday. No pass will be needed further than the bronze cross of honor. The old veterans are looking happily forward to the occasion.

The members of the Georgia daily and weekly press will also attend the fair Thursday, and it is needless to say that they will have the best of times.

The fact that the first running races were to be pulled off Wednesday was responsible for additional large crowds. There had been no running events since 1904, and many visitors were anxious to see the cards.

One of the principal features of the fair this year is the splendid exhibit of live stock, the building being crowded with animals of the different classes, and the number of visitors to this show being larger than ever before.

The fair has been able with its own funds and through the generosity of the American Jersey Cattle club, with a large donation for Jersey prizes, to draw one of the finest exhibits of Jersey cattle ever shown in the south. There are five exhibitors with large herds, and two with smaller herds.

The fair secured the services of Mr. W. B. Spann of Dallas, Tex., to act as judge of the dairy cattle, who acted as judge of Jerseys at the St. Louis World's fair in 1904.

Mr. Spann began judging the cows Tuesday, working on all the individual classes, and Wednesday finished judging the herd prizes. Mr. Spann, after judging the cattle, declared the exhibits to be one of the best shows ever seen in the south, and that it was next in importance to the St. Louis World's fair and the Portland exposition.

Colonel J. J. Richardson of Davenport, Ia., came to the exhibit as special representative of the American Jersey club, and witnessed the work, also stating that Georgia deserved great credit for such a fine showing in this line.

Mr. W. Gedlyn, the well known Jersey breeder from Athens, Tenn., and Mr. Reuben Gentry, manager of Overton farm, near Nashville, also came to see these cattle, and expressed themselves as highly pleased. A grand parade of the cattle will be held on the race track on Thursday at 11:30, when all the winners will be seen.

On account of the importance of this stock show, the Georgia Dairy Live Stock association called a special short meeting to be held on the fair grounds in the auditorium, which opened at 2 p. m. with a crowd of interested members and live stock breeders present.

Mansfield Injured by Fall.

New York, Oct. 18.—John G. Mansfield, 25 years old, of Richmond, Va., while coming out of a Broad street restaurant in Newark tripped and fell, striking his head on a grating and was taken to St. Barnaby's hospital in an unconscious condition. Mr. Mansfield, who is a son of Colonel Mansfield, U. S. A., was formerly a sailor on the United States gunboat Bennington and when the explosion occurred on that ship several years ago he received two compound fractures of the skull. When the physicians examined him they found a depression and thought he received it by the fall. But Mansfield revived when they were about to operate and explained his injury on the gunboat. He will recover.

Resolutions Against Lawlessness.

San Francisco, Oct. 18.—The chamber of commerce Tuesday took up the question of preventing lawlessness and adopted measures for its suppression. It was decided that the chamber should take no important action at this time, but its aid was pledged to the committee of safety. Representatives of the chamber will be placed on the committee and will co-operate in every way. William A. Doble, chairman of the committee of safety, announced that the citizens who are to act with the committee have been selected. From the number an executive committee will be selected and this executive body will carry on the active duties of the body.

Don't Want Contest.

New York, Oct. 18.—Efforts are still being made to prevent a contest over the probate of the will of Herman Oelrichs, which disinherited his widow, Teresa Alice Oelrichs and left only some personal effects to his 15-year-old son. His brother Charles E. Oelrichs is the residuatory legatee. Citations for the probate of the will were postponed until Tuesday, but by agreement of counsel a further adjournment was taken until Thursday, within which to principal objections either for the son or widow. It is expected that a compromise will be reached.

Terrorists Amassing Money.

Warsaw, Oct. 18.—The police discovered the headquarters of an elaborately organized band of terrorists and captured 49 members of the band who are charged with having committed many murders and robberies. It is also alleged that the band originally delivered the proceeds of their crimes to the local socialistic organization, but becoming dissatisfied with quently carried on business on their own account and had a bank account showing a deposit of about $5,000.

Fishing Company Wants Damages.

Victoria, B. C., Oct. 18.—According to advices from Japan, directors of the Toy Fishing company of Wakayama, owners of the schooner Toyi Masua No. 2, which had five men killed and 12 captured when raiding the St. Paul Rookery in Behring sea last July, have approached the Japanese government, asking that a claim for damages be lodged with the American government.

Charged With Uxoricide.

Toms River, N. J., Oct. 18.—Nothing is left of the trial of Dr. Frank Brouwer, who has been on trial for the past 10 days on a charge of poisoning his wife but the summing up and the judge's charge to the jury. The evidence in the case was completed at dusk Tuesday night, when the hearing of some rebuttal evidence was concluded.

Johnson Must Hang.

Washington, Oct. 18.—Justice White of the supreme court of the United States denied an application for a writ of error in the case of Commander Johnson of Horry county, South Carolina, under sentence of death on the charge of murdering Harmon Grainger in 1903.

O. C. TOUSEY WAS HEAVILY TOUCHED

Burglar Entered His Room and Relieved Him of Big Wad.

$165 WAS EXTENT OF HIS LOSS

Burglar Entered the Home From the Bath-Room Window On the Second Floor, Proceeded to the Lower Bedroom and Secured the Money.

O. C. Tousey, an energetic and hard-working citizen of this city who has by economy and strict attention to his duties managed to save up considerable money within the past year, has been feeling badly for the past few days over the robbery of his home, in which he is $165 in cash short.

On Saturday evening it is usually the custom of the members of the household to go shopping. While they were thus engaged some miscreant entered the bathroom window on the second floor, by means of a ladder, and, going down-stairs into the bedroom of Mr. and Mrs Tousey, secured two bags, containing in all the amount above stated. The party or parties also secured a watch, but dropped the timepiece as they were descending the ladder and never stopped to pick it up.

Mr. Tousey is employed as a salesman at the store of J. G. Harrold. He is an industrious and hard-working citizen, and his friends greatly deplore his serious loss.

Mr. Tousey stated Thursday that he had not given the secret before to any persons but the officers, with a hope that he would be enabled to apprehend the burglar.

SEVERAL HURT IN COLLISION.

Engineer Higginbotham Has Thrilling Escape From Death.

Macon, Ga., Oct. 18.—Switch engine No. 1124, of the Central of Georgia railway, in charge of Engineer J. H. Higginbotham, crashed into a long freight in charge of Engineer O. L. Hudson, on the East Macon end of the Ocmulgee river bridge and did considerable damage to both engines and several cars and threw Engineer Higginbotham from his cab to the stringer on the bridge, where he hung on with a death-like grip until Engineer Hudson and Fireman Carroll rescued him from a 40-foot drop into the waters of the river.

The accident occurred in broad daylight while the Athens freight was entering Macon. The switch engine was sent out after some cars at the Royster guano works and met the freight on the way.

Besides some severe bruises both engineers and firemen were considerably shaken up, their engines and tanks having been jammed together with terrific force. Both were thrown to the bridge beams, but Higginbotham was the only man who came near going through to the waters of the river. He was hanging on in a desperate effort to regain his hold on the bridge when rescued. Within an hour the wreckage was cleared and the injured men were removed to where their wounds could be dressed.

Cozy Homes.

The discovery of a new wick principle—so effective and yet so simple that it's a wonder that no one thought of it before—has so revolutionized the manufacture of oil heaters and lamps that explosion, smoke and smell, caused by imperfect wick arrangement, may safely be regarded as things of the past.

This new wick arranngement is to be found on the Perfection Oil Heater. Interesting tests show that, although the heater gives intense heat, the wick cannot be turned too high or too low—absolute safety is thus assured. One other feature which is worthy of mention is the smokeless device which prevents all smoke and odor. The portability of the heater also commends it for general household use. Heater is very light and can be easily carried about. Its simple operation, usefulness in heating water and warming cold rooms, make it a most handy and useful article in any home. This heater is so far superior to other oil heaters, and is of such fair price that its universal adoption is but a matter of time.

The Rayo Lamp, which is made by the manufacturers of the Perfection Oil Heater, is without doubt the best lamp for all-round household use. Is equipped with the latest improved burner, and gives a bright, steady light at small cost. Suitable for any room, whether library, dining-room, parlor or bed-room.

The Perfection Oil Heater and the Rayo Lamp form a combination that for real home comfort cannot be equaled. When consideration is taken of the simple operation of both heater and lamp, their absolute safety, the intense heat generated by the one, and the bright and steady light given by the other—all without smoke or smell—their value in any home, large or small, can be somewhat appreciated. Sold by all good dealers.

House Work

Need Not Wear Her Out

The drudgery of house work seems never ending to tired-out, dispirited women who suffer from female complaints or irregularities. Inflammation and ulceration cause fearful bearing-down pains which are aggravated by much standing on the feet, and lifting necessary in house work.

But let no woman despair of relief from this torture. That famous tonic reconstructor of diseased or disordered female organism,

Lydia E. Pinkham's Vegetable Compound

has cured more than one million American Women, and it will cure you. When troubled with painful irregularities, when backaches and headaches drive out all ambition, Lydia E. Pinkham's Vegetable Compound will bring back health, strength, and happiness.

It Gave Me New Life and Vigor

DEAR MRS. PINKHAM:—Last spring, while we were moving, I did considerable more work than my strength permitted, and, having mental trouble at the same time, my health broke down completely and I found myself unable to rest or eat. My nervous system became shattered and I was pale and emaciated and had to take to my bed.

My sister advised me to try Lydia E. Pinkham's Vegetable Compound, and, although I had no faith in patent medicines, I was so miserable that I would take anything for relief, I found that it made a complete change for the better, inducing appetite and restful sleep and imparting new life and vigor to my entire system.

I gained nearly fourteen pounds, my complexion looked fresh and clear, and my best friends were surprised and pleased at the change and could hardly credit the fact that Lydia E. Pinkham's Vegetable Compound had accomplished it.

Unknown Man Murdered.

Jackson, Miss., Oct. 18.—Another assassination has been added to the long list of tragedies which have occurred in Sullivan's Hollow neighborhood by the murder of an unknown man in the public road about 10 miles from Raleigh. State Treasurer W. J. Miller was driving along the road when he heard a fusilade of shots, and hurrying forward, he found the body of a man lying in the road. The victim is believed to be one of the state's witnesses in the Sullivan Hollow murder case, which is to be tried at Raleigh next week.

Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor.

Call For Political Action.

Boston, Mass., Oct. 18.—The united call for political action on the part of the labor unions of the state, the plan of campaign and the names of the men who will be opposed in the coming elections by the labor men as represented in the Massachusetts branch of the American Federation of Labor, were mailed to the officers of every union in the state Wednesday. This action was taken as a result of resolutions adopted by the state convention of the federation held in Lawrence last week. Among the men opposed for public office are Lieutenant Governor Eben S. Draper and 25 state senators, who voted against, or did not vote for the "Overtime" bill at the last session of the legislature.

Taft's Party at Norfolk.

Norfolk, Va., Oct. 18.—The battleship Louisiana, bearing Secretary of War Taft and party, homeward bound from Havana, Cuba, passed in the Virginia capes Wednesday morning, accompanied by the battleships Virginia and New Jersey. The Louisiana and her sister battleships, which came in the capes in the midst of a severe northeast storm, with the wind blowing 36 miles an hour on the outside and a very heavy sea, proceeded at once for Hampton Roads to transfer the party in very stormy weather to the dispatch boat Dolphin, awaiting to convey them to Washington, where they probably will arrive Thursday morning.

Boat Plunges to the Bottom.

Biserta, Tunis, Oct. 18.—The French submarine Lutin left this port Tuesday morning for plunging experiments. Signals received at 10 o'clock Tuesday night reported her disappearance. Two torpedo boats and three tugs have gone out in search of the submarine. It now appears almost certain, according to news received at a late hour that the crew of the Lutin has suffered a fate similar to that which overtook the crew of the submarine Farfadet here last year. The crew of the Lutin number 14 men, under command of Lieutenant Phoepen.

W. C. T. U. In Convention.

Boston, Mass., Oct. 18.—From far away Japan and Australia, and from more than 50 other countries in both the eastern and the western hemisphere, thousands of women interested in temperance reforms have come to this city to participate in the triennial world's convention of the Woman's Christian Temperance union, which opened here Wednesday. In addition to the business sessions, many public meetings have been arranged at which prominent women temperance workers from this country and abroad will deliver addresses.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to, I had better attend to it at once, as I could not possibly live another month, as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." J. W. McCollum & Co.

To Bar Veterans From Polls.

Johnson City, Tenn., Oct. 18.—A bill has been filed asking that the inmates of the Federal Soldiers' home at that point be enjoined from registering. It is claimed this move is made by the opponents of Congressman Brownlow, who claims that the old soldiers are not residents of Tennessee.

Heat on Tobacco Improves it Like Roasting Improves Green Coffee. Heat Develops the Stimulating Aroma and Taste found in Schnapps Tobacco and Coffee

Three ways are used by farmers for curing and preparing their tobacco for the market; namely sun cured, air cured and flue cured. The old and cheap way is called air cured; the later discovery and improved way is called flue cured.

In flue curing the tobacco is taken from the fields and racked in barns especially built to retain heat and there subjected to a continuous high temperature, produced by the direct heat of flame heated flues, which brings out in the tobacco that stimulating taste and aroma that expert roasting develops in green coffee. These similar processes give to both tobacco and coffee the cheering and stimulating quality that popularizes their use.

The quality of tobacco depends much on the curing process and the kind of soil that produces it, as expert tests prove that this flue cured tobacco, grown in the famous Piedmont region, requires and takes less sweetening than tobacco grown in any other section of the United States and has a wholesome, stimulating, juicy, full tobacco taste that satisfies tobacco hunger. That's why chewers prefer Schnapps, because Schnapps cheers more than any other chewing tobacco, and that's why chewers of Schnapps pass the good thing along—one chewer makes other chewers, until the fact is established that there are more chewers and more pounds of tobacco chewed to the population in states where Schnapps tobacco is sold than there are in those states where Schnapps has not yet been offered to the trade.

A 10c. plug of Schnapps is more economical than a much larger 10c. plug of cheap tobacco. Sold at 50c. per pound in 5c. cuts. Strictly 10 and 15 cent plugs.

Fighting Fire a Serious Problem.

Washington, Oct. 18.—Fighting fire is a serious problem on the canal zone, where the government has thousands of frame buildings, but reports just received by the Isthmian canal commission in this city indicate that the volunteer departments organized on the canal strip have been unusually successful. In the past seven months there were 24 fires and the total loss was not over $1,000.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere—seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co. Detroit Mich.

THE GAMBLER'S CHANCE.

Richard A. Canfield, the big New York gambler, who has recently been in the limelight of publicity because of a lawsuit, puts the gaming proposition in unique form: "If you play with a gambler long enough," says Canfield, "he is bound to win your money. He can't help but get it. When you play with me in round numbers you put up $100, and against that I put up $90. Now figure how long you can keep doing this. You may win my money now and then, you may break me temporarily, but as long as you play against me at the odds of 100 to 90, in the end I'll have your money."

Canfield ought to know. He is reputed to have made $5,000,000 in the gambling business. It is said he has not personally touched a card in twenty years. He intrusts the business of his establishment to subordinates and relies with mathematical certainty upon the returns. Canfield puts it very plainly. If you go into the gambler's game he has 100 chances to your 90—ten chances to your nine. If you stay in the game long enough—and the majority of the players do—he will get your pile. It is simply science, skill and luck pitted against absolute certainty. The end is known from the beginning.

That is where the average man who gambles makes his fundamental mistake. He imagines that good fortune will beat the law of mathematics. He bets on the theory that good playing and luck will enable him to overcome the stubborn fact that 10 is one more than 9. Canfield says what everyone ought to know: When you go up against the gambler's game you go up against a dead sure thing. The gambler's game is not "game of chance" at all. Chance has nothing to do with it. It is financial robbery done scientifically. Gambler Canfield's frank statement will have little effect, however. There will always be the man who fancies he can change 9 into a bigger figure than 10.

State Treasurer Berry of Pennsylvania is giving the Republican machine of that State a much-needed lesson. Berry is a Democrat, but he is supported by The Philadelphia Press, and the Lincoln Republicans, as well as the Democratic party. He is sifting the charges of extravagance and graft in the building of the new capitol to the very bottom. He has exposed much fraud and corruption, and has called upon Attorney-General Carson to prosecute the Pennypacker Board of Public Buildings and Grounds and demand an accounting. President Roosevelt may plead for the grafters, but he can't save them. Berry means business.

Postmaster-General Cortelyou is still holding the position of chairman of the Republican National Committee and interested in the collection of campaign funds from the corporations and the office-holders. This would have been denounced in former years by that enthusiastic civil service reformer, Charles Joseph Bonaparte, now secretary of the navy, but being, part of a reform administration, appears to have closed his eyes to that infraction of civil service ideals.

A few days ago we were informed that when a bank failed in China the officials of the institution were beheaded. Now comes the news that "it is a hundred years since a bank has failed in China." They have apparently found the cure.

The King of Spain must rather congratulate himself that the "Pearl of the Antilles" no longer has a place in his jewel box.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Take Hall's Family Pills for constipation.

A few years ago a man with a million dollars was supposed to have reached almost the acme of wealth. Today The Wall Street Journal estimates that the wealth of the six richest men in America aggregates $1,000,000,000, or as much as ten hundred single millionaires would possess. Looks like the rich are getting richer, all right, whether the poor are getting poorer or not.

If we could all get the use of the money in the United States treasury without interest like the Wall street bankers, there would probably not be so much said about "the public being out of Wall street." Without the use of the public money the frenzied financiers would be in hard straits and the whole fabric of speculation would tumble in an hour.

The man who says he believes in competition either lies or talks much like those individuals who are given to prevarication. No man wants competition in business—he wants a monopoly. He will do anything possible to crush out competition and have a monopoly. This applies to little business men the same as to the great trusts.

Scientists have discovered that the memory is stronger in summer than in winter. Among the worst foes of memory are too much food, too much physical exercise, and, strangely enough, too much education.

Call For Political Action.

Boston, Mass., Oct. 18.—The united call for political action on the part of the labor unions of the state, the plan of campaign and the names of the men who will be opposed in the coming elections by the labor men as represented in the Massachusetts branch of the American Federation of Labor, were mailed to the officers of every union in the state Wednesday. This action was taken as a result of resolutions adopted by the state convention of the federation held in Lawrence last week. Among the men opposed for public office are Lieutenant Governor Eben S. Draper and 25 state senators, who voted against, or did not vote for the "Overtime" bill at the last session of the legislature.

Taft's Party at Norfolk.

Norfolk, Va., Oct. 18.—The battleship Louisiana, bearing Secretary of War Taft and party, homeward bound from Havana, Cuba, passed in the Virginia capes Wednesday morning, accompanied by the battleships Virginia and New Jersey. The Louisiana and her sister battleships, which came in the capes in the midst of a severe northeast storm, with the wind blowing 36 miles an hour on the outside and a very heavy sea, proceeded at once for Hampton Roads to transfer the party in very stormy weather to the dispatch boat Dolphin, awaiting to convey them to Washington, where they probably will arrive Thursday morning.

Boat Plunges to the Bottom.

Biserta, Tunis, Oct. 18.—The French submarine Lutin left this port Tuesday morning for plunging experiments. Signals received at 10 o'clock Tuesday night reported her disappearance. Two torpedo boats and three tugs have gone out in search of the submarine. It now appears almost certain, according to news received at a late hour that the crew of the Lutin has suffered a fate similar to that which overtook the crew of the submarine Farfadet here last year. The crew of the Lutin number 14 men, under command of Lieutenant Phoepon.

W. C. T. U. In Convention.

Boston, Mass., Oct. 18.—From far away Japan and Australia, and from more than 50 other countries in both the eastern and the western hemisphere, thousands of women interested in temperance reforms have come to this city to participate in the triennial world's convention of the Woman's Christian Temperance union, which opened here Wednesday. In addition to the business sessions, many public meetings have been arranged at which prominent women temperance workers from this country and abroad will deliver addresses.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to, I had better attend to it at once, as I could not possibly live another month, as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." J. W. McCollum & Co.

To Bar Veterans From Polls.

Johnson City, Tenn., Oct. 18.—A bill has been filed asking that the inmates of the Federal Soldiers' home at that point be enjoined from registering. It is claimed this move is made by the opponents of Congressman Brownlow, who claims that the old soldiers are not residents of Tennessee.

Was a man of nerve, but sickness left its mark and he became aged before his time. Sickness is often caused by a torpid liver. Herbine will regulate your liver and give you health. Heat on Tobacco Improves it Like Roasting Improves Green Coffee. Heat Develops the Stimulating Aroma and Taste found in Schnapps Tobacco and Coffee

Three ways are used by farmers for curing and preparing their tobacco for the market; namely sun cured, air cured and flue cured. The old and cheap way is called air cured; the later discovery and improved way is called flue cured.

In flue curing the tobacco is taken from the fields and racked in barns especially built to retain heat and there subjected to a continuous high temperature, produced by the direct heat of flame heated flues, which brings out in the tobacco that stimulating taste and aroma that expert roasting develops in green coffee. These similar processes give to both tobacco and coffee the cheering and stimulating quality that popularizes their use.

The quality of tobacco depends much on the curing process and the kind of soil that produces it, as expert tests prove that this flue cured tobacco, grown in the famous Piedmont region, requires and takes less sweetening than tobacco grown in any other section of the United States and has a wholesome, stimulating, juicy, full tobacco taste that satisfies tobacco hunger. That's why chewers prefer Schnapps, because Schnapps cheers more than any other chewing tobacco, and that's why chewers of Schnapps pass the good thing along—one chewer makes other chewers, until the fact is established that there are more chewers and more pounds of tobacco chewed to the population in states where Schnapps tobacco is sold than there are in those states where Schnapps has not yet been offered to the trade.

A 10c. plug of Schnapps is more economical than a much larger 10c. plug of cheap tobacco. Sold at 50c. per pound in 5c. cuts. Strictly 10 and 15 cent plugs.

Fighting Fire a Serious Problem.

Washington, Oct. 18.—Fighting fire is a serious problem on the canal zone, where the government has thousands of frame buildings, but reports just received by the Isthmian canal commission in this city indicate that the volunteer departments organized on the canal strip have been unusually successful. In the past seven months there were 24 fires and the total loss was not over $1,000.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere, —seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co. Detroit, Mich.

THE GAMBLER'S CHANCE.

Richard A. Canfield, the big New York gambler, who has recently been in the limelight of publicity because of a lawsuit, puts the gaming proposition in unique form: "If you play with a gambler long enough," says Canfield, "he is bound to win your money. He can't help but get it. When you play with me in round numbers you put up $100, and against that I put up $90. Now figure how long you can keep doing this. You may win my money now and then, you may break me temporarily, but as long as you play against me at the odds of 100 to 90, in the end I'll have your money."

Canfield ought to know. He is reputed to have made $5,000,000 in the gambling business. It is said he has not personally touched a card in twenty years. He intrusts the business of his establishment to subordinates and relies with mathematical certainty upon the returns. Canfield puts it very plainly. If you go into the gambler's game he has 100 chances to your 90—ten chances to your nine. If you stay in the game long enough—and the majority of the players do—he will get your pile. It is simply science, skill and luck pitted against absolute certainty. The end is known from the beginning.

That is where the average man who gambles makes his fundamental mistake. He imagines that good fortune will beat the law of mathematics. He bets on the theory that good playing and luck will enable him to overcome the stubborn fact that 10 is one more than 9. Canfield says what everyone ought to know: When you go up against the gambler's game you go up against a dead sure thing. The gambler's game is not "game of chance" at all. Chance has nothing to do with it. It is financial robbery done scientifically. Gambler Canfield's frank statement will have little effect, however. There will always be the man who fancies he can change 9 into a bigger figure than 10.

State Treasurer Berry of Pennsylvania is giving the Republican machine of that State a much-needed lesson. Berry is a Democrat, but he is supported by The Philadelphia Press, and the Lincoln Republicans, as well as the Democratic party. He is sifting the charges of extravagance and graft in the building of the new capitol to the very bottom. He has exposed much fraud and corruption, and has called upon Attorney-General Carson to prosecute the Pennypacker Board of Public Buildings and Grounds and demand an accounting. President Roosevelt may plead for the grafters, but he can't save them. Berry means business.

Postmaster-General Cortelyou is still holding the position of chairman of the Republican National Committee and interested in the collection of campaign funds from the corporations and the office-holders. This would have been denounced in former years by that enthusiastic civil service reformer, Charles Joseph Bonaparte, now secretary of the navy, but being, part of a reform administration, appears to have closed his eyes to that infraction of civil service ideals.

A few days ago we were informed that when a bank failed in China the officials of the institution were beheaded. Now comes the news that "it is a hundred years since a bank has failed in China." They have apparently found the cure.

The King of Spain must rather congratulate himself that the "Pearl of the Antilles" no longer has a place in his jewel box.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

Take Hall's Family Pills for constipation.

A few years ago a man with a million dollars was supposed to have reached almost the acme of wealth. Today The Wall Street Journal estimates that the wealth of the six richest men in America aggregates $1,000,000,000, or as much as ten hundred single millionaires would possess. Looks like the rich are getting richer, all right, whether the poor are getting poorer or not.

If we could all get the use of the money in the United States treasury without interest like the Wall street bankers, there would probably not be so much said about "the public being out of Wall street." Without the use of the public money the frenzied financiers would be in hard straits and the whole fabric of speculation would tumble in an hour.

The man who says he believes in competition either lies or talks much like those individuals who are given to prevarication. No man wants competition in business—he wants a monopoly. He will do anything possible to crush out competition and have a monopoly. This applies to little business men the same as to the great trusts.

Howard Gould's sister-in-law has become the wife of a Chinaman. A brother-in-law of Howard's is Count Boni de Castellane. Howard might almost be justified in feeling pessimistic on the brother-in-law question.

Scientists have discovered that the memory is stronger in summer than in winter. Among the worst foes of memory are too much food, too much physical exercise, and, strangely enough, too much education.

Don't pull every flower that blooms. Some thrive best on their own stems, some joys you will have most if you're not too selfish to leave them to others

WILD WITH ITCHING HUMOR

Eruption Broke Out in Spots All Over Body—Caused a Continual Itching for Two Years—Doctor's Medicine Did no Good—Cured at Expense of only $1.25 and Now

THANKS CUTICURA FOR COMPLETE CURE

'Some time ago I wrote you for a book on the Cuticura Remedies and received it O. K. and went and bought the Soap, Ointment, and Pills. They did me more good than any medicine I ever used. They cured me of my skin disease, and I am very thankful to you. My trouble was eruption of the skin, which broke out in spots all over my body, and caused a continual itching which nearly drove me wild at times. I got medicine of a doctor, but it did not cure me, and when I saw in a paper your ad., I sent to you for the Cuticura book and I studied my case in it. I then went to the drug store and bought one cake of Cuticura Soap, one box of Cuticura Ointment, and one vial of Cuticura Pills. From the first application I received relief. I used the first set and two extra cakes of Cuticura Soap, and was completely cured. I had suffered for two years, and I again thank Cuticura for my cure. If you wish, you may publish this. Your friend forever, Claude N. Johnson, Maple Grove Farm, R. F. D. 2, Walnut, Kan., June 15, 1905."

ITCH! ITCH! ITCH!

SCRATCH! SCRATCH! SCRATCH! This is the condition of thousands of skin-tortured men, women, and children, who may be instantly relieved and speedily cured by warm baths with Cuticura Soap and gentle applications of Cuticura Ointment, the great Skin Cure, and mild doses of Cuticura Resolvent Pills, when physicians and all else fail.

Sold throughout the world. Cuticura Soap, 25c., Ointment, 50c., Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60), may be had of all druggists. A single set often cures. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

I beg to announce to the friends and patrons of the late Mr. B. F. Jordan that his Insurance business will be continued by me, at the same office, for and in the interest solely of his family.

THE ELKS' HOME.

Material Being Delivered, and Work Has Already Begun.

The committee in charge of building of the new Elks' Home has made fine progress. The committee evidently realized that it was appointed for work, not suggestions and delay, and accepted accordingly.

When the building has been properly altered and repaired it will make one of the finest homes of its kind in the State, and something of which the Gainesville lodge may well feel proud.

The home will be located at the corner of West Liberty and South Pleasant streets.

Marshal Chas. Pinkoson raided a house in the eastern section of the city Thursday afternoon, with the result that he "pulled in" nine followers of the game commonly called "skin." Those arrested were Lem Hutchinson, Tom McFadden, Chas. Hill, Will Rowe, Marion Rowe, Will White, Tom Williams, Joe Williams and Bill Jones, all colored. The marshal made the raid single-handed, later bringing them to town, where they were placed in jail to await the action of the mayor's court this morning. Hutchinson and McFadden gave bond, however, and were released. This is the third raid Officer Pinkoson has made on offenders of this character within the past three weeks, and is to be commended for his diligence in this direction.

George Taylor of Palmer, superintendent of the Gainesville Peach Orchard Company, was in the city yesterday, and made The Sun an agreeable call. Mr. Taylor is not only a thorough horticulturist and agriculturist, a progressive citizen as well, and is doing a great deal towards the success of the Alachua county exhibit at the Florida State Fair. He expects to spend his time at the Fair in assisting Manager Callison and his staff in arranging the exhibit and taking care of same.

HOISERY TALK.

The season has now come when it is necessary for the whole family to wear Shoes, and of course you can't wear Shoes without Stockings, and usually the Stocking bill is more than the Shoe bill. This will not be the case if you buy a standard brand of goods.

We have just received a large shipment of the celebrated BLACK CAT HOISERY for Men, Women and Children, and this brand is too well known to need much talking about. The price commences at 10c and runs up 'The Boys' Hose at 15 and 25c wear almost like leather. See the line and try a pair next time you buy.

The Radcliffe Shoe for Ladies'—both button and lace—at $2.50 per pair are the best that money can buy.

FUNERAL OF MR. JORDAN.

One of the Largest Crowds Ever Seen in Gainesville at Similar Occasion.

One of the largest crowds ever assembled on a similar occasion gathered at Holy Trinity Episcopal Church Thursday morning to attend the funeral of B. F. Jordan, who died Wednesday morning.

The services were conducted at the church by Rev. Francis H. Craighill, rector, and were very impressive. At the conclusion of the services the remains were taken in charge of by Gainesville Lodge No. 990, B. P. O. E., of which deceased was a member, with an escort from Center Lodge No 11, I. O. O. F., and Colfax Rebekah Lodge No. 2, I. O. O. F. who accompanied the remains to their last resting-place.

The floral decorations were as plentiful as they were handsome, and fragrant, which attested the popularity of the deceased.

As a remark of respect to the deceased, and as a further evidence of the esteem in which he was held, all places of business in the city were closed during the funeral services, which were about an hour.

In the death of Mr. Jordan the people of Gainesville lose a valuable friend, and the city one of its most ardent and progressive citizens.

Among the prominent planters visiting this city yesterday was S. L. Turner of Lake View, who came for the purpose of placing on the market some fine oranges, the product of his own grove. Mr. Turner has about two hundred trees in full bearing, and the fruit is as sweet, as luscious and as finely flavored as can be found in the State. He is desirous of disposing of his crop on the trees and to the merchants of Gainesville, and is succeeding nicely.
